## KITCHEN

engineered quartz is technical ceramic featuring extra-large sizes and a low thickness, with the characteristics of engineered quartz.

These slabs of exceptional beauty and versatility do not fear the ravages of time.

## BATHROOM

A material so innovative that it breaks down the barriers between surfaces for architecture and furnishing. Strength plus lightness, very large sizes and a low thickness to make floors, walls, furnishings and finishings. Not just surfaces.

## FURNITURE

engineered quartz offers a very rich variety of textural effects so as to always find the right uncompromising inspiration. Each material is a prototype of beauty.

## OFFICE

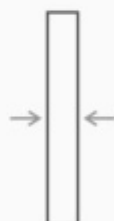

engineered quartz so innovative and versatile that they break down the barriers between surfaces for architecture and furnishing, between indoor and outdoor use. The freedom to design grows, with solutions that were impossible until yesterday.
